SUMMARY

An ambitious tech enthusiast eager to secure a position that utilizes my skills and supports my technical growth.

PROJECTS

Dog Breed Prediction using machine learning

- Developed a web application where users can upload a dog image to identify its breed using the Inception V3 machine learning algorithm.
- Achieved an accuracy rate of approximately 83%, providing reliable breed identification results.
- Tech Stack: Python, Inception V3, Flask

Cafe Management System

- Developed a Cafe Management System with features including login, sign-up, category management, product addition and updates, order placement, bill viewing, and password/security question changes.
- This comprehensive system streamlines cafe operations and enhances user experience.
- Tech Stack: Java, MySQL

WORK EXPERIENCE

Syscort Global Services Private Limited - Web Development Intern

Worked as a Web Development Intern at Syscort Global Services Private Limited, gaining practical experience in HTML, CSS, and WordPress. Successfully contributed to web development projects and adapted to a professional office environment.

EDUCATION

2024 - present	Bachelors of Engineering at PICT (TE-IT)	(SGPA: 9.68/10.0)
2023	Diploma at Government Polytechnic, Aurangabad (Computer Technology)	(94.41/100)
2020	Class 10th SSC Board	(97.40/100)

SKILLS

Technical Skills C, C++, Java, Data Structure and Algorithms, MySQL, Python, HTML, CSS. Other Skills Operating System, Computer Network.
